

Tooth Whitening Menu

In surgery Philips ZOOM using the UV lamp – This treatment takes approximately 1.5 hours. You will need a consultation to determine suitability for the treatment – You will leave the surgery with a new icy bright smile with instant visible results. You will also have trays made so you can 'top up' at home. **This treatment costs £399** including 3 complimentary 'top up syringes', custom made bleaching trays **AND a Phillips Sonicare EasyClean Electric toothbrush.**

Philips ZOOM Day White home whitening system -This involves having impressions taken for custom made bleaching trays that can be made within 24 hours – we provide you with 6 syringes of 6% Hydrogen Peroxide which means you can whiten your teeth in the comfort of your own home to reach your desired shade. **This treatment costs £250 including custom made trays.**

Philips ZOOM Day White top up syringes – 3 syringes of 6 % Hydrogen Peroxide to help you maintain your bright white smile – these syringes cost **just £80.00**

Philips single top up syringe – Budget Buy!! 1 syringe of 6% Hydrogen Peroxide **for £25.00**

Philips ZOOM QuickPro – This is the latest product from Philips. The kit contains 8 vials of 6% hydrogen peroxide, lip retractor and brushes so you can whiten your teeth at home for a special occasion or event without the need for impressions and involves minimal clinical time. You need to use 2 x daily for 30 minutes for 4 days in a row. They are simple to use as they adhere to the fronts of your teeth and are the least invasive with no sensitivity, which is why they are the perfect option for those who cannot tolerate impressions and have a strong gag reflex. **This treatment costs £150**
